IT INITIATIVES 2025

UP-GRADATION OF ADMIN PANELS – LHC WEBSITE

UP-GRADATION OF ADMIN PANELS – LHC WEBSITE

BACKGROUND & OBJECTIVE

- Different departments relied entirely on the IT Wing for uploading content to the LHC website, causing frequent delays.
- Centralized content management created bottlenecks in timely dissemination of important information.
- Content such as the Roster of Judges, Tender Notices, and Reported Judgments was affected by these delays.
- Dedicated Admin Panels were developed for various Wings to allow independent and secure content management.
- Each Admin Panel was designed in accordance with the approved Content Management Policy.

IMPACT, OUTCOME AND BENEFITS

- Individual Wings can now independently manage and update their website content.
- Monitoring mechanisms were established to ensure adherence to the Content Management Policy.
- Each Wing now manages its content autonomously through a secure and user-friendly interface.
- Standardized content management practices were established and maintained across the Court.
- A decentralized yet policy-compliant content management ecosystem was created.
- Significantly enhanced the Court's digital responsiveness and operational effectiveness.
- Improved public access to timely and accurate information on the LHC website.
- Strengthened transparency and accountability in website content management.

PROJECT DURATION

- 15.03.2025 to 30.04.2025

LEADERSHIP

Justice Miss Aalia Neelum
The Hon'ble Chief Justice

OVERALL GUIDANCE
