IT INITIATIVES 2025

LIVE PROCEEDINGS FEATURE ON MOBILE APP AND LHC WEBSITE

LIVE PROCEEDINGS FEATURE ON MOBILE APP AND LHC WEBSITE

BACKGROUND & OBJECTIVE

- There was no system to inform litigants or the general public about cases actively being heard.
- The absence of real-time proceedings information reduced transparency and increased unnecessary court queries.
- An Online Court Proceedings Module was developed to display real-time hearing information.
- The module was integrated into the official LHC website and mobile application.
- It provides visibility into ongoing proceedings without offering detailed case interaction.

IMPACT, OUTCOME AND BENEFITS

- Users can now view a live list of cases under hearing via the website and mobile app.
- Public accessibility to judicial information was improved without compromising data security.
- Transparency in ongoing court proceedings was significantly enhanced.
- Litigants and lawyers can monitor court activity remotely without visiting the premises.
- Supports a more digitally enabled and citizen-friendly court environment.
- Reduces pressure on court staff from routine hearing-status inquiries.
- Public awareness of ongoing judicial proceedings has increased.
