POSTAL PROCESS SERVING – CASH HANDLING APPLICATION

POSTAL PROCESS SERVING – CASH HANDLING APPLICATION

BACKGROUND & OBJECTIVE

- Notices are issued to case parties, but the associated fee collection process is currently manual.
- The manual process results in limited tracking and an increased risk of financial errors.
- There is a lack of real-time coordination with the Treasury Branch in fee collection.
- A software solution is being developed to automate the entire notice fee collection process.
- The Treasury Branch will be involved in voucher signing and payment verification.

IMPACT, OUTCOME AND BENEFITS

- Manual steps in fee collection will be replaced with a transparent digital workflow.
- Accurate logging of payment amounts will reduce discrepancies in financial records.
- Every transaction will be verified and approved by the Treasury Branch.
- A fully automated, trackable notice fee collection process will be established.
- All collected amounts will be digitally logged and reconciled in real time.
- Treasury Branch oversight will ensure accuracy and financial control.
- Improved financial accountability and reduced risk of errors or misappropriation.
- Enhanced operational efficiency through digital automation of fee processing.
- Better coordination between judicial branches and the Treasury Wing.
