HEALTH RECORD SYSTEM FOR JUDICIAL OFFICERS AND LHC ESTABLISHMENT

HEALTH RECORD SYSTEM FOR JUDICIAL OFFICERS AND LHC ESTABLISHMENT

BACKGROUND & OBJECTIVE

- The Health Management System maintains employees' medical test records and monitors their health status.
- It provides a centralized platform for recording, updating, and accessing health-related data.
- The system enables timely identification of health risks and supports preventive measures.
- Authorized officials can track medical histories and generate analytical health reports.
- The initiative promotes a healthier work environment and supports informed health policy decisions.

IMPACT, OUTCOME AND BENEFITS

- Comprehensive medical histories of employees are now maintained throughout their service.
- Timely monitoring of health records enables early detection of potential health risks.
- A centralized and accessible digital health record system is operational for all LHC staff.
- Health risks are identified early and addressed through preventive interventions.
- Medical histories are available to authorized personnel whenever needed.
- Better employee health oversight contributing to a healthier workplace.
- Reduced absenteeism through early identification and management of health conditions.
- Enhanced overall workplace well-being and employee care standards.

PROJECT DURATION

- 28.10.2025 to 21.11.2025
