

IT INITIATIVES 2025

INTEGRATION OF CASE RECORD BETWEEN CFMS, LHC AND CMS, DISTRICT JUDICIARY

INTEGRATION OF CASE RECORD BETWEEN CFMS, LHC AND CMS, DISTRICT JUDICIARY

BACKGROUND & OBJECTIVE

- Aims to establish seamless synchronization of case records between LHC-CFMS and District CMS.
- Ensures accurate and real-time reflection of case statuses across both systems.
- Addresses issues identified during verification of pending Civil Revisions, Criminal Revisions and Writ Petitions.
- Resolves discrepancies arising from cases already disposed of by District Courts but not updated in LHC records.
- Eliminates the limited utility of manually entered district judiciary data in CFMS.
- Enables automated exchange and updating of case-related information between judicial systems.

IMPACT, OUTCOME AND BENEFITS

- Establishes a unified and synchronized judicial data environment across both systems.
- Creates a single and reliable source of truth for case-related information.
- Eliminates redundant data entry and manual reconciliation efforts.
- Minimizes discrepancies in judicial records and case status information.
- Improves the speed and accuracy of case verification processes.
- Ensures instant reflection of updates across connected judicial platforms.
- Enhances data integrity and consistency in record management.
- Reduces administrative workload and operational inefficiencies.
- Strengthens transparency and accountability in judicial information management.

PROJECT DURATION

- January to April 2026
