IT INITIATIVES 2025

PROCUREMENT MANAGEMENT SYSTEM

PROCUREMENT MANAGEMENT SYSTEM

BACKGROUND & OBJECTIVE

- Currently, there is no centralized computerized system for recording, processing, and monitoring procurement activities, repair and maintenance of fixed assets and equipment, or the utilization of allocated budgets and funds.
- Procurement and repair/service cases are processed manually, resulting in fragmented record-keeping, limited transparency, and increased dependence on paper-based documentation.
- In the absence of an automated mechanism, real-time monitoring of budget allocations, committed expenditures, and available balances is not possible.

IMPACT, OUTCOME AND BENEFITS

- To address the limitations and inefficiencies associated with the manual processing of procurements, a modern, centralized, web-based Procurement Management System has been developed for use by the Procurement Wing of this Court.
- The application provides secure, role-based access to users according to their designated responsibilities, ensuring that each officer or official can perform only the functions assigned to their role while maintaining data security and accountability.
- All procurement-related information, including requisitions, approvals, purchase details, suppliers, and financial transactions, is maintained in a centralized digital repository, ensuring accuracy, consistency, and ease of retrieval.

PROJECT DURATION

- February to April 2026

LEADERSHIP

Justice Miss Aalia Neelum
The Hon'ble Chief Justice

OVERALL GUIDANCE

Mr. Javed Iqbal Bosal
Director General (Judicial & Case Management)

TECHNICAL SUPERVISION

Mr. Jamal Ahmad
Additional Registrar (IT-LHC)

Mr. Iftikhar Ahmad
Deputy Registrar (IT-Management)

Mr. Awais Afzal
Deputy Registrar IT (Software & Web)

DEVELOPED BY

Mr. Saeed Iqbal
Assistant Registrar IT(Dev)

Mr. Raees-ul-Islaam
Web Associate

IT WING, LAHORE HIGH COURT, LAHORE
