THE OXFORD HANDBOOK OF INTERNATIONAL CLIMATE CHANGE LAW

**CINNAMON P. CARLARNE, KEVIN
R. GRAY, RICHARD G. TARASOFSKY
OXFORD UNIVERSITY PRESS, 2016**

This Book provides an unprecedented and authoritative overview of all aspects of international climate change law as it currently stands, with guidance for how it should develop in the future. Over forty leading scholars and practitioners set out a comprehensive understanding of the legal issues that surround this vitally important but still emerging area of international law. This book addresses the major legal dimensions of the problems caused by climate change: not only in the content and nature of the international legal frameworks, which need implementation at the national level, but also the development of carbon trading systems as a means of reducing the costs of meeting emission reduction targets.

SMITH AND KEENAN'S COMPANY LAW

**CHARLES WILD AND STUART
WEINSTEIN
PEARSON, 2016**

This edition represents a significant change in approach from that adopted previously. The Companies Act 2006 can no longer be described as being in its infancy and, as such, it has been important to acknowledge this in terms of both the content and focus of this edition. The opportunity has also been taken to update the order and structure of the text so as to reflect the needs of students studying company law. This edition includes chapters on corporate governance, corporate finance, corporate insolvency etc.

GOWER PRINCIPLES OF MODERN COMPANY LAW PAUL L. DAVIS AND SARAH WORTHINGTON SWEET & MAXWELL, 2016

This book presents the leading text available on company law, providing clarity while covering all key areas by way of a detailed, in-depth analysis. Students, as well as those involved in company law on a day-to-day basis, can turn to Gower secure in the knowledge that it will be an interesting, thought provoking and, above all, understandable exposition of both law and practice. Gower's Principles of Modern Company Law gives students the comprehensive guidance they need in order to understand this complex area of law, and provides company law professionals with a reliable reference guide.

EUROPEAN BANKING AND FINANCIAL LAW MATTHIAS HAENTJENS, PIERRE DE GIOIA-CARABELLESE ROUTLEDGE, 2015

In recent decades, the volume of EU legislation on financial law has increased exponentially. Banks, insurers, pension funds, investment firms and other financial institutions all are increasingly subject to European regulatory rules, as are day-to-day financial transactions. Serving as a comprehensive and authoritative introduction to European banking and financial law, the book is organized around the three economic themes that are central to the financial industry: (i) financial markets; (ii) financial institutions; and (iii) financial transactions.

**THE OXFORD HANDBOOK OF
THE U.S. CONSTITUTION
MARK TUSHNET, MARK A.
GRABER, SANFORD LEVINSON
OXFORD UNIVERSITY PRESS,
2015**

This book provides a comprehensive guide to the United States Constitution. It examines constitutional developments based on a periodization scheme that partly reflects important changes in constitutional governance, from the Jacksonian Era to the beginning of the 1980s. The book's general historical institutionalist orientation blurs precise distinctions between political science and law, with particular reference to the role of political parties, interest groups, and bureaucrats in operating a constitution designed to prevent the rise of parties, interest-group politics, and an entrenched bureaucracy. The book also considers exertions of power by the Supreme Court, along with the national executive and Congress.

**ENERGY, GOVERNANCE AND
SUSTAINABILITY**

**JORDI JARIA I MANZANO,
NATHALIE CHALIFOUR, LOUIS J.
KOTZE
EDWARD ELGAR PUBLISHING,
2015**

This book makes an in-depth and timely contribution to the debate about how to transform our energy governance systems into ones that support a fair, safe and sustainable society. It combines perspectives from leading scholars around the world to provide a global outlook on alternative approaches to energy governance and innovative experiences. It offers a unique snapshot of some of the innovative and novel ways in which law can support the shift to sustainable and equitable energy systems.

**VALUE ADDED TAX : A
COMPARATIVE APPROACH
ALAN SCHENK, VICTOR
THURONYI, WEI CUI
CAMBRIDGE UNIVERSITY
PRESS, 2015**

This book integrates legal, economic, and administrative materials about the value added tax (VAT) to present the only comparative approach to the study of VAT law. The comparative presentation of this volume offers an analysis of policy issues relating to tax structure and tax base as well as insights into how cases arising out of VAT disputes have been resolved. Its principal purpose is to provide comprehensive teaching tools - laws, cases, analytical exercises, and questions drawn from the experience of countries and organizations around the world.

**BELT & ROAD LAWS OF
PAKISTAN
MOHAMMAD SAQIB JILLANI,
2015**

**(Gifted by Hon'ble Chief
Justice Mr. Justice Syed
Mansoor Ali Shah)**

The Hong Kong WTO Research Institute and the Law School of Zhejiang University jointly held an international forum on One Belt One Road (OBOR) in July 2015, which attracted scholars from the major countries along the OBOR. Based on the success of the forum, the Hong Kong WTO Research Institute and the Law School of Zhejiang University are in the process of composing a multi-volume book on the laws of the OBOR countries. This book is one of the chapters on Pakistan contributed by Mohammad Saqib Jillani, an advocate of High Court.
