AGAINST THE NEW CONSTITUTIONALISM, TAMAS GYORFI, EDWARD ELGAR PUBLISHING, 2016

Ever since the Second World War, a new constitutional model has emerged worldwide that gives a pivotal role to judges. Against the New Constitutionalism challenges this reigning paradigm and develops a distinctively liberal position against strong constitutional review that puts the emphasis on epistemic considerations. The author considers whether the minimalist judicial review of Nordic countries is more in line with the best justification of the institution than the Commonwealth model that occupies a central place in contemporary constitutional scholarship.
